MORGENTHALER ANNOUNCES ADDITION TO COMM-WORKS HOLDINGS, LLC

Acquisition of Harbor Technologies expands Comm-Works' service offerings in the retail industry

Boston and Minneapolis – August 2, 2007 –Morgenthaler Partners (www.morgenthaler.com) announced today that its portfolio company, Comm-Works Holdings, LLC, (www.comm-works.com) has acquired Harbor Technologies (www.harbortech.com) of Mt. Laurel, N.J. The acquisition allows Comm-Works to enhance its VoIP, wireless and network security service offerings, while further enhancing its retail industry vertical penetration. Based in Minneapolis, Minn., Comm-Works is a single-source provider of enterprise voice, data and technology solutions for multi-location, national corporations and government agencies. The transaction was finalized on August 1, 2007.

Harbor Technologies is a full-service enterprise networking company that specializes in the design, implementation, deployment, project management and maintenance of IP network solutions. Harbor Technologies is a [Cisco Certified Silver Partner](#) and operates a 24x7x365 [Network Operations Center](#) and Help Desk located in a 30,000-square foot facility in Mt. Laurel, N.J. The combined company's revenues are expected to reach approximately \$115 million in 2007.

Alan Lampe, Comm-Works' co-founder and chief executive officer, will continue to lead the combined company. Senior managers of Harbor Technologies will hold equivalent positions in the newly merged organization. Morgenthaler general partners, Daniel Farrar and Peter Taft, will continue to serve on the Comm-Works board of directors.

"Comm-Works' acquisition of Harbor Technologies continues the successful strategy we employed with the acquisition of [InteleX Inc.](#) in August of last year," said Daniel Farrar, Comm-Works' board chairman. "With Harbor Technologies, we further strengthen our ability to deliver next generation networking solutions. We see a tremendous demand for a single-source provider with a greater menu of service choices, which are tailored to meet the industry-specific needs of our customers."

Exponential growth

From 2003 through 2007, Comm-Works achieved compound revenue growth of 41 percent (including anticipated Harbor Technologies' revenues from the acquisition date through calendar year-end). Comm-Works has been twice recognized by Inc. Magazine as one of America's 500 fastest-growing private companies, and as one of Deloitte Technology's Fast 500.

Comm-Works acquired telephony service providers Fortran Communications Systems and Mahon Communications Corporation in January 2005, and InteleX Inc. in August 2006. In line

with its growth strategy, these acquisitions added to Comm-Works' strength in the government services and retail sectors and enhanced expertise in project management, deployment, and support for large-scale, multi-site voice and data installations.

"By joining forces with Harbor Technologies, we are well positioned to take advantage of double digit growth in the retail sector," said Al Lampe, chief executive officer of Comm-Works. "And this is good news for our customers, who will continue to work with the same sales and customer service teams that can now offer access to greater resources."

Transaction financing was led by M&I Marshall & Ilsley Bank and included NorthStar Capital, LLC. Baker & Hostetler LLP acted as the legal counsel for Comm-Works Holdings, LLC. Terms of the transaction were not disclosed.
