Who throws a party in Palo Alto?!

Well actually ... Today Eric Schmidt's Innovation Endeavors, Talenthouse, Super Happy Dev House and the City of Palo Alto itself have joined forces to give nerds a place to play on University Ave for 12 hours. So why should you stop coding and jump on the Super Happy Block Party bandwagon? Well a gaggle of VCs have occupied the 3rd floor of the High/Alma South Garage, committing themselves to hearing your ideas until 7pm tonight. Poor things!

Full list of VCs to harass to pitch:
